SECTION ONE

GENERAL RULES & REGULATIONS

The Conditions of Carriage referenced on the front and back of the Canadian Uniform Household Goods Bill of Lading are the regulations upon which this Tariff is based. The following rules are defined to assist in the application of specific charges for services rendered.

Rule 1 - Automobile Transportation Charges

- (A) The weight of the automobile shall be used to determine transportation charges and additional transportation charges (Section 3, Item 1(A) when a shipment:

- 1) Has an origin and/or destination in the Yukon, N.W.T., or Labrador; and/or,
- 2) Includes a truck or van in excess of one-half ton rating (i.e. full size pick-ups, 4x4 pick-ups, mini and full size vans).

The charges for transporting the vehicle(s) shall be calculated by including the weight of the vehicle in with the weight of the household goods to obtain a transportation rate from Section 2 of this tariff. The combined weight of the vehicle(s) and the household goods shall be applied to the rate per 100 pounds (cwt.).

Yukon Territory, Northwest Territories and Labrador Surcharges shall be calculated by using the combined weight of the vehicle(s) and the household goods applied to the rate per 100 pounds (cwt.).

A blocking charge of **\$149.13 per vehicle** will also apply for the transportation of automobiles, trucks and vans.

- (B) All automobiles and trucks or vans of 1/2 ton rating or less, shipped to areas in Canada not listed in part (A) of this rule shall have charges calculated at the following rate per mile:

Miles	Rate per Mile
150 - 500	\$2.15
501 - 1,000	1.56
1,000 - 2,000	1.15
2,000 - 3,000	1.04
3,000 - and over	.88

When the origin or destination of the shipment falls within a location identified in Item No.1 (A) of Section 3, a surcharge of **\$134.60 per vehicle per occasion** shall apply.

A blocking charge of **\$149.13 per vehicle** will also apply for the transportation of automobiles, trucks and vans.

Note:

- 1) When an automobile, truck or van requires storage, a charge of \$3.09 per vehicle for each 24 hour period or fraction thereof including weekends and holidays, shall be charged for the handling and holding in storage. This charge is subject to a minimum of \$27.48 per vehicle.
- 2) Warehouse Handling and Pickup or Delivery Transportation charges, as identified in Item 4 of Section 3 shall not apply to the weight of the automobile, truck or vehicle.
- 3) Packing Service charges, as identified in Item 2(ii) shall not apply to the weight of the automobile, truck or vehicle.
- 4) Transit Times, Rule 15, will apply to the automobile as well as the shipment, even though they may be transported separately. The carrier agrees to reimburse the shipper all rental costs for a compact car

which includes daily rental fee, the collision damage waiver, the additional mileage charge beyond the free allowance and any imposed taxes for the period of time after the final Transit Time Guide date up until date of delivery.

Rule 2 - Bulky Articles

Except as otherwise provided in Rule 1 of this tariff, when a shipment includes a bulky article, for example, boat, canoe, trailer, camper, etc., such shipment will be accepted at transportation charges computed by taking the actual weight of the shipment not including the bulky article(s) and adding to this 7 pounds per cubic foot, of total vehicle space occupied by the bulky article(s).

Rule 3 - Consolidated Shipments

The property of two or more families or establishments located at different addresses may be accepted for transportation as a single shipment, provided that the property to be consolidated is tendered for loading at one time and at one place of origin for transportation to one place of destination. Charges applicable for this type of shipment will be the same as defined in Rule 6 of this tariff.

Rule 4 - Declaration of Value

The base transportation rates named in this tariff are applicable only to shipments in which all the articles therein are declared to have or released to a value of 60 cents per pound or less. Whenever the declared or released value of the entire shipment exceeds 60 cents per pound there will be, added to base transportation charges, a valuation charge as specified in Item 3 of Section 3.

Rule 5 - Diversion of Shipments

A change in the destination of the shipment defines the term "diversion". The point at which the driver of the vehicle transporting the shipment is contacted with the new instructions to effect delivery defines the term "diversion point".

When diversion instructions are received from the consignee or owner, the shipment will be diverted, with transportation charges assessed at the through rate from point of origin to point of final destination via the actual diversion point, unless the new destination is within a 25 mile radius of the destination previously ordered.

Rule 6 - Extra Pickup or Delivery

Subject to additional charges as provided in Section 3 No.1(c) of this tariff, portions of a shipment may be picked up or delivered at one or more places of origin, destination or en-route. Charges will be for total weight of entire shipment, for total distance from first point of pickup to final point of delivery. The total charges for picked up or delivered portions shall not, in any case, exceed the total charges as would apply if computed to each portion as a separate shipment.

Rule 7 - Hourly Rates

Charges based on time shall be computed by multiplying the hourly rate by the time involved. Unless otherwise provided, fractions of an hour will be disposed of as follows: where the time involved is less than 15 minutes the charge shall be for one quarter of an hour; when in excess of 15 minutes but not more than 30 minutes, charge for one half hour; when in excess of 30 minutes but not more than 45 minutes, charge for three quarters of an hour; and, when in excess of 45 minutes charge for one hour.

Rule 8 - Impractical Pick Up or Delivery - Auxiliary Service

The transportation rates in this tariff do not include pick up of shipment at origin address or to complete delivery of shipment at destination address with vehicle assigned, when it is physically impossible to do so.

To perform the pick up or delivery service, the carrier will use or engage equipment and/or extra labour

necessary with additional charges for such service as provided in Section 3, No. 5(B) of this tariff.

Rule 9 - Late Delivery

In such instance as a shipment is not tendered for delivery on or before the date specified in the Transit Time Guide (Rule 15) or on the specified date requested by the shipper, the shipper or owner of the goods will be compensated with reasonable food and lodging expenses incurred each day of delay.

Rule 10 - Mileage and Intermediate Application

The distance or mileage shall be that shown in Atlas Van Lines (Canada) Certified Mileage Guide.

Rule 11 - Replacement Value Protection

In lieu of condition No. 9 on the reverse side of the Canadian Uniform Household Goods Bill of Lading, whenever the declared or released value of the entire shipment exceeds 60 cents per pound, the carrier shall accept liability for the amount of any loss or damage for which the carrier accepts liability, whether or not the loss or damage results from negligence of the carrier or its employees or agents, for full cost of repairs or replacement without deduction for depreciation of any article or articles which are part of household furniture and/or personal effects lost or damaged while in the custody of its agents.

Replacement value shall not apply on individual items having a replacement value in excess of \$5,000, or collections/matched sets having a combined value in excess of \$5,000 unless such items are listed on the face of the Bill of Lading or a schedule thereto, and the value thereof confirmed by written appraisal delivered to carrier on or before loading. The written appraisal should be delivered to the carrier on or before the packing date if the individual item is to be packed. The value of such items shall be added to the declared value of the shipment. Any articles not currently purchased in the commercial North American Market will be settled at the appraised value only.

The carrier shall not be liable for damage or loss of a complete set or unit when only part of such set is damaged or lost, in which event the carrier shall only be liable for repair or recovery of the lost or damaged piece or pieces.

Motor vehicles, trailers, campers, snowmobiles, motorcycles or boats (including outboard motors) damage or loss settlement shall be based on current market values at origin on date of loading. If the parties cannot agree on the value, then the value of motor vehicles shall be the value published in the issue of Canadian Red Book of used car valuations (or a similar publication) current of date of loading.

If the vehicle is not listed in the issue current at the time of loading, then the value shown in the last issue in which the vehicle was listed, or failing this, the purchase price when new depreciated at a rate of 15% per year on a declining balance basis less the amount that any preexisting damage decreased the value of the vehicle, shall be the Book Value. Values for the remaining items described shall be the average of two appraisals given by dealers in such items for a unit of the same model, year and condition. Consignor shall obtain one such appraisal and carrier shall obtain one.

The carrier reserves the right to repair or replace any article or articles lost or damaged in lieu of making cash settlement with the shipper, consignor or owner of the goods.

Notes:

1. When the carrier pays for the replacement value or replaces a lost or damaged item, the lost or damaged item becomes the property of the carrier.
2. Jewelry, coins, stamps, documents or personal records held on diskette, watches, currency and precious stones or metals are excluded from coverage under carrier replacement value protection.
3. Deterioration of or damage to perishable food, plants, pets, dried flowers or ceramic green ware is

excluded from coverage under carrier replacement value protection.

4. Carrier is not liable for sentimental value, economic or consequential damages or loss as a result of damage and/or loss of any goods or claim settlement process.

For additional coverage and/or exclusions to liability, please refer to Condition No. 5 on the reverse of the Canadian Uniform Household Goods Bill of Lading.

Rule 12 - Special Services

(A) Expedited Service (See Note)

Expedited service as used herein means tendering delivery of a shipment, the actual weight of which is less than provided in this Rule, on or before a specified date. Shippers obtain expedited service on a shipment by accepting the following minimum weights: up to 500 miles, 6,000 lbs.; 501 to 1,100 miles, 8,000 lbs.; and, 1,101 miles and over, 10,000 lbs.

(B) Exclusive Use (See Note)

Shippers may obtain the exclusive use of a single vehicle by accepting charges based on actual weight subject to a minimum weight of 28,000 pounds. Shippers may obtain the exclusive use of a single container by accepting charges based on actual weight subject to the following minimum weight for each container shown: eight foot container, 3,600 lbs.; nine foot container, 4,200 lbs.; and, twelve foot container, 5,700 lbs.

Note:

If the shipper orders either service, the request must be marked or stamped in the special service section of the Canadian Uniform Household Goods Bill of Lading.

Rule 13 - Storage in Transit (SIT)/Storage in Van (SIV)

SIT

See Rule 1 for storage in transit charges relating to automobiles, trucks and vans.

Storage in transit of shipments covered by this tariff is the holding of the shipment in the warehouse of the carrier or its agent, for storage, pending further transportation.

Shipments moving under this Rule may be stored for a period not to exceed 60 days, from the date of unloading into the warehouse, at charges as provided in Section 3, No. 4 of this tariff, subject to 1,000 lbs. minimum. When not removed at the expiration of 60 days the warehouse shall be considered the destination of the shipment, the warehouseman shall be agent for the shipper and the property shall be subject to the rules, regulations and charges of the warehouseman.

SIV

Storage in Van is the holding of a shipment in an authorized unit (van/trailer) for storage pending further transportation. SIV was developed to accommodate door-to-door moves and to minimize handling of household goods.

At the discretion of the carrier, SIV may be offered to the client in lieu of SIT. SIV authorization must be obtained from the client prior to the move. Shipments in SIV may be stored for a period up to 10 calendar days. SIV will start only after the minimum TTG has been reached.

Rule 14 - Special Article Servicing

The transportation rates in this tariff do not include the handling, loading or unloading of any single article

requiring hoisting, lowering, rigging or extra-specialized labour. Charges for such servicing will be as provided in Section 3, No. 5(B) of this tariff.

The transportation rates in this tariff do not include the servicing of articles or appliances such as refrigerators, deep freeze, cabinets, radios, record players, compact disc players, washing machines, television sets, air conditioners, personal computers, and the like; nor is liability assumed for any such damage unless the articles or appliances are serviced as provided in the following:

- At the option of the carrier, and if arranged prior to the loading of the shipment, the carrier will engage a third party to service and re-service such articles and appliances for additional charges as provided in Section 3, No. 5(D) of this tariff. Servicing and re-servicing does not include removal or installation of articles secured to the premise, plumbing, carpentry service necessary to disconnect remove connect and install articles or appliances and waterbed service. Re-servicing does not include parts necessary for the re-connecting or installation of articles or appliances, plumbing and waterbed re-service; and,
- As required by the shipper, the carrier will engage a third party to service and re-service articles not covered by this tariff item, at charges defined in Section 3, No. 5(B) of this tariff.

Rule 15 - Transit Times

The carrier will establish a delivery spread or guarantee a delivery date, within minimum and maximum transit times, with the shipper. The carrier guarantees to the shipper that every effort possible will be made to meet delivery commitments. When a delivery date is not established between the shipper, consignor or owner of the goods and the carrier, the maximum transit time as provided in this Rule shall apply and the shipment may be tendered for delivery on or before the maximum date.

The shipper, consignee or his agent shall be available to accept the shipment on or between the minimum and maximum times as provided in the transit time guide. In such instance as the shipper, consignor or his agent is not available to accept the shipment as provided herein, the shipment shall be placed in storage in transit and be subject to additional charges as provided in Rule 13 of this tariff.

Transit Time Guide Notes:

1. Minimum and Maximum Transit Times as provided herein shall not include time resulting from adverse driving conditions and acts of God.
2. The transit time guide in this Rule provides minimum and maximum transit times in days which shall include the days the shipment is loaded and unloaded, but does not include Sundays and Statutory holidays.
3. With the exception of shipments originating or destined to Goose Bay/Happy Valley, Labrador, on shipments with origin or destination in a surcharge area, an additional three days will be added to the maximum transit time. When both origin and destination are in surcharge areas, a maximum of six days will be added regardless of the number of surcharge areas encountered.
4. For shipments with an origin or destination in Goose Bay/Happy Valley, Labrador (and surrounding areas), add twelve (12) calendar days to transit times, versus three days for a surcharge area. When the shipment is picked up or delivered to a point within a surcharge area on a shipment which originates or is destined to Goose Bay/Happy Valley, Labrador (and surrounding areas), a maximum of fourteen (14) days will be added to transit times, regardless of the number of surcharge areas encountered.

5. With the exception of the Newfoundland ferry crossing, for shipments involving ferry crossing, one additional day will be added to maximum transit times, in addition to any surcharge area.
6. For shipments to/from the island of Newfoundland, three additional days will be added for the ferry crossing, in addition to any surcharge area allowance.
7. Two (2) additional days are to be added to the maximum transit time for shipments loading between November 1 and March 15 of each year.
8. A minimum of three (3) business days registration notification is required prior to the loading day for a move. Registrations received with less than three (3) business days notification will require the shortfall days to be added to the maximum transit time for that move.
9. If the customer cannot accept delivery before a specified date that is past the minimum transit time (but not past the maximum transit time) for the move, then add the number of days difference between that of the minimum date and the specified (not before) date to the maximum transit time to determine the TTG for the move.

Rule 16 – Guaranteed Price

Prior to loading of the move, the carrier will provide a guaranteed total price, completed by an experienced moving consultant and based upon a completed and signed moving proposal and table of measurement form denoting those items that will be included in the move. If additional items are added to the list after the guaranteed price is provided as determined during loading the guarantee will become null and void with charges based upon actual scaled weight.

Rule 17 – Scaling Fee

A scaling fee of \$118.22 will apply to those moves where partial deliveries are made to both a temporary residence and to a warehouse facility at destination. This additional scale will be made to determine charges applicable for Storage in Transit.

SECTION TWO

TRANSPORTATION RATES

Application of Transportation Rates (between points within Canada)

Rates in this section apply on shipments transported between points within Canada.

Rates are in dollars and cents per 100 pounds (cwt.), applied to actual weight subject to a 1,000 pound minimum, with the exception of shipments transported under the provisions of Rule 3 and 6 of this tariff.

All moves weighing 3,000 pounds or less will be subject to a small shipment surcharge of \$336.00.

A portion of a shipment transported as provided in Rule 3 or 6 of this tariff shall move at actual weight subject to 1,000 pounds minimum, except shall not apply on portions of a shipment loaded consecutively on the same vehicle.

Rates include the disassembling of set up pieces of furniture at their location in the establishment of owner, the physical handling from such location to the van, stowage of same within the van body, unloading of goods at destination, handling of same to place in establishment designated and the setting up of pieces of furniture which were disassembled at origin.

Breakpoint indicates weight at which a lower charge develops by use of lowest weight and applicable rate in next higher weight bracket.

When shipment distance exceeds 4,720 miles transportation rate for the appropriate weight, add **\$4.33** for each additional 100 miles or fraction thereof, to the 4,720 miles rate to arrive at the transportation rate to apply.

5. MISCELLANEOUS CHARGES

(A) Claim Settlement Service Charge

Upon request of a party, person firm or establishment assuming liability for loss and/or damage in excess of the carrier's liability with respect to a shipment on which a carrier has extended credit to such party, person, firm or establishment from the charges applicable to such shipment, the carrier will:

- (i) Investigate any loss and/or damage claim;
- (ii) Arrange for the repair of all damaged articles when appropriate and make such settlement with the shipper as is deemed equitable for all lost articles and for all damaged articles, repair of which is not deemed appropriate, with the carrier assuming only that portion of the amount required to settle the claim for which it is liable and any additional amount to be borne by the person or firm assuming the excess liability; and,
- (iii) Render to the person or firm assuming the excess liability an invoice, payable in 7 days, for the amount required to settle the claim which exceeds the carrier's liability, plus a charge equal to 10% of the total claim, subject to a minimum charge per shipment of **\$320.00**.

Note: Any charges or portions thereof for service of others engaged at the request of the person or firm assuming the excess liability, which are over and above the amount for which carrier is liable under its Bill of Lading, will be at the expense of such person or firm and will be in addition to all other rates and charges.

(B) Special Article Servicing Charges

Where and when it is possible for a carrier with the proper equipment in their possession to perform special article servicing, that carrier will perform the services requested by the customer at local hourly charges.

In a situation where a third party is requested to perform the special article servicing, the carrier will collect from the shipper third party charges plus a 20% service charge per charge, subject to a \$20.00 minimum charge at origin and at destination.

(C) Waiting Time (Not the fault of the carrier)

Per vehicle per hour

\$116.38

Per vehicle per hour in the Northwest Territories,
Yukon Territory and Nunavut
(Each Additional person per hour)

Unless otherwise provided by agreement, loading and unloading will be performed between the hours of 7:00 a.m. to 6:00 p.m. and waiting time will be applicable only between these hours Monday to Saturday inclusive including Statutory Holidays (as specified in Item 1(D), subject to a maximum of 8 chargeable wait time hours per day and to the following points:

- (i) When a shipment is traveling less than 200 miles, 1 hour free time per vehicle will be allowed.
- (ii) When a shipment is traveling 200 miles or more, 3 hours free time per vehicle will be allowed.
- (iii) In the case of unloading, waiting time beyond 8 hours in excess of allowable free time will be rendered only at the convenience of the carrier. At the option of the carrier, upon expiration of 8 hours chargeable waiting time, the shipment may be placed in storage in transit at the nearest available warehouse of the carrier or its agent in which case the shipment then shall be subject to the provisions of Section 2, Rule 13 and Section 3, No. 4.

(D) *Appliance Servicing & Re-Servicing (See Note)*

Rates in this item are in dollars and cents and shall be applied once at origin and once at destination when services are rendered.

Service or Re-Servicing rate includes one or all of washer, dryer, refrigerator and range servicing or re-servicing.

Note: In such instance as parts are required for the servicing or re-servicing of appliances, charges for such parts supplied shall be in addition to charges provided in this item and subject to additional charges as provided in Section 3, No. 5(B).
